-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

Claims 1-5,9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 1, lines 1-2, the 'in particular' phrase is indefinite as it is not clear what is being positively claimed. In claim 9, what does 'at least one' mean in a preamble context?

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,2 are rejected under 35 U.S.C. 102(b) as being anticipated by Rado et al. This patent discloses the claimed process steps.

Claims 6-9 are rejected under 35 U.S.C. 102(b) as being anticipated by Yamamoto. This patent discloses the claimed apparatus elements.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 10 is rejected under 35 U.S.C. 103(a) as being unpatentable over Yamamoto in view of the European application (Europe). Yamamoto does not disclose the use of a ventilator which may result in an unwanted product. Europe solves this problem by disclosing process and apparatus including the use of an aspirator/ventilator. In order to produce the desired product, it would have been obvious for one of ordinary skill in the art to modify Yamamoto by providing an aspirator/ventilator, taught to be desirable by Europe.

Claims 4,5 are rejected under 35 U.S.C. 103(a) as being unpatentable over Rado et al in view of Europe. See the previous paragraph for the use of Europe.

Claim 3 is rejected under 35 U.S.C. 103(a) as being unpatentable over Rado et al in view of Salette-Garcas. Rado et al does not use projections on its rotor, which may result in inefficient husking. Salette-Garcas solves this problem by disclosing similar process including the use of projections on a rotor. In order to ensure efficient husking, it would have been obvious for one of ordinary skill in the art to modify Rado et al by providing projections on the rotor, taught to be desirable by Salette-Garcas.
